Athlete Code rules for all athletes

Clubs should ensure all current athletes:

1. Have at least one Gymsport and Level on their profile at all times.
2. Only have the latest Gymsport(s) and Level(s) displayed in their profile.
3. Only have one Level per Gymsport except where specified in the [2023 Athlete Coding Guide](#).
4. Do not have decommissioned athlete codes listed on an athlete's profile. Please note that decommissioned codes have been listed in the [2023 Athlete Coding Guide](#).
5. Meet any age restrictions for any age-based Athlete Codes. Please note that age restrictions have been defined in the [2023 Athlete Coding Guide](#) for some codes.
6. Do not have duplicate Gymsport and Levels listed in their profiles.

Where to go for assistance

For more assistance with Athlete Codes:

1. Read the FAQs in the [2023 Athlete Coding Guide](#) as this contains all the information that Clubs need to know!
2. Have a look at the Frameworks, Technical Regulations and other information relating to [Gymsports](#).
3. Have a look at the [Managing Athlete Gymsports & Levels information page](#).
4. Have a look at our [Getting Started as a Club Administrator page](#).
5. Please contact your [local State or Territory Gymnastics Association](#) if you need any assistance with figuring out which Gymsport and levels to code your Club's athletes.
6. Please [raise a support ticket](#) for support with entering and updating athlete codes.

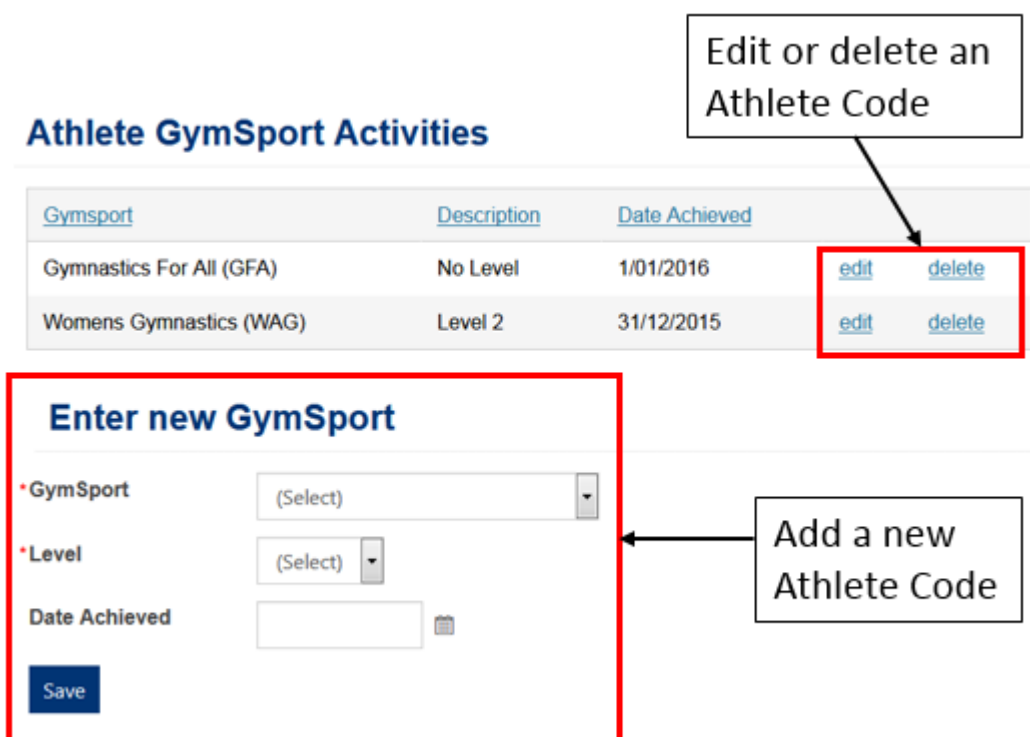

How Clubs can manage Athlete Codes in the Club Admin Portal

To keep Athlete Codes up to date, Clubs can add, update or remove athlete codes by using one of the following methods in the Club Admin Portal:

- Club Admin Home> Administration> Bulk Renew
- Club Admin Home> Reports> Current Year Athletes (incl. Gymsports)
- Club Admin Home> Reports> Current Year Multi-Club Athletes
- Club Admin Home> Club Information> Club Athlete Search
- Club Admin Home> Bad Data> Incorrect Athlete Code — All Registered Athletes

- Club Admin Home> Bad Data> Missing Athlete Code — All Registered Athletes
- Club Admin Home> Administration> Club Import (can only add Gymsports with this method)

In all methods apart from the Club Import, a table with Gymsport, Level and Date will be displayed usually under an Athlete GymSport Activities header.

Athlete GymSport Activities

Gymsport	Description	Date Achieved	
Gymnastics For All (GFA)	No Level	1/01/2016	edit delete
Womens Gymnastics (WAG)	Level 2	31/12/2015	edit delete

Enter new GymSport

*GymSport (Select) [v]

Athlete Coding Facts and Questions

Q. What are athlete codes?

A. Athlete codes are Gymsport and Level codes so Gymnastics in Australia can track which Gymsport and level an athlete is currently participating in. Athlete codes correspond to [Gymsports and their sport frameworks](#).

Q. Why do we need correct Gymsport and level codes?

A. It is important for all athletes to have Gymsport and Levels for the following reasons:

- To be accepted in competition registrations.
- For Gymnastics Online, Club Admin Portal, Websites and the National Gymnastics database to work well.
- For annual statistics

- For grant and funding applications.
- For accurate reporting.
- To support targeted marketing and communication.
- To help the sport to effectively monitor Gymsports and make informed decisions.
- To help the sport to track the growth of Gymsports.

Q: Does every athlete require an athlete Gymsport and Level?

A: Yes, every athlete requires at least one athlete code (Gymsport and Level)

Q. Do all athletes require an up to date Gymsport and Level?

A. Yes, as part of [Club Affiliation requirements \(affiliation standard number 10\)](#), all athletes require a Gymsport and Level using up to date Athlete Codes as per this guide. The main reasons for this are to ensure our athlete code statistics are accurate and also to ensure that athletes are in the correct Gymsport and level for competitions.

Q: Can an athlete have more than one Gymsport?

A: Yes, athletes can have more than one Gymsport e.g. An athlete can be a WAG athlete and also be a TUM athlete. Please be aware that there are some special rules for Multi-Club Athletes — please look at the [Club Administration Policy](#) for more information.

Q: Can an athlete have more than one Level in their Gymsport?

A: Not all Gymsports allow athletes to have more than one level in their Gymsport. To check what is allowed, please refer to the ‘More than one level required?’ column in the Gymsport codes list.

Q: How can I use the importer tool for an athlete who has multiple Athlete Codes?

A: The template for the new Club Importer Tool released in early 2019 now allows an athlete to have up to 3 different athlete codes defined for an individual athlete on one line. Please note that every Athlete is now required to have at least one athlete code defined in order to be registered via the Club Importer method.

Q: Is it important to check age groups when placing an athlete into a Gymsport’s Level?

A: Yes, it is important to check age groups when placing an athlete into a Gymsport and Level as some levels are open to particular age groups and this may change from year to year. Failure to ensure correct age groups could result in an athlete being unable to complete in competitions. The best way to check age groups for levels is to check the description column in the Gymsport’s codes list.

Q. How can a Club check athlete Gymsport and level codes?

A. Clubs can check athlete codes by using one of the following methods in the Club Admin Portal:

- Club Admin Home> Reports (click the hyperlink on the athlete name to display athlete record)
- Club Admin Home> Administration> Bulk Renew
- Club Admin Home> Club Information> Club Athlete Search

Q. Why would an athlete be missing an athlete code?

A. Athlete who have missing athlete codes are due to one of the following:

- An athlete who not been renewed since 2015, has been renewed.
- Athlete has been transferred from another Club who has not been renewed since 2015.
- The Club has created a new athlete record and not completed Step 4 in the [Add or Transfer an Athlete Form](#).

Q. How can a Club identify missing athlete Gymsport and Level codes?

A. Missing athlete codes can prevent your athlete from entering a competition and also are not counted in the overall number for a Gymsport. Clubs can [identify and fix](#) missing athlete Gymsport and Level codes via the following report:

- Club Admin Home> Bad Data> Missing Athlete Code — All Registered Athletes

Q. Why would an athlete have an incorrect athlete code?

A. Athlete who have incorrect athlete codes are due to one of the following:

- Incorrect or incomplete athlete code (Gymsport and level) has been imported via the old Club Importer.
- Renewed an athlete who has a decommissioned or incorrect athlete code.
- Athlete has been transferred from another Club who has decommissioned or incorrect athlete code.

Q. How does a Club know if an athlete has incorrect Athlete Gymsport and Level Codes?

A. Incorrect athlete codes can prevent your athletes from entering a competition and they are not counted in the overall number for a Gymsport. Clubs can [identify and fix](#) incorrect athlete Gymsport and Level codes via the following report:

- Club Admin Home> Bad Data> Incorrect Athlete Code – All Registered Athletes

Q. How can a Club update athlete Gymsport and level codes?

A. Clubs can update athlete codes by using one of the following methods in the Club Admin Portal:

- Club Admin Home> Administration> Bulk Renew
- Club Admin Home> Reports> Current Year Athletes (incl. Gymsports)
- Club Admin Home> Reports> Current Year Multi-Club Athletes
- Club Admin Home> Club Information> Club Athlete Search
- Club Admin Home> Bad Data> Incorrect Athlete Code — All Registered Athletes
- Club Admin Home> Bad Data> Missing Athlete Code — All Registered Athletes
- Club Admin Home> Administration> Club Import (only can add Gymsports with this method)

In all methods apart from the Club Import, a table with Gymsport, Level and Date will be displayed usually under an Athlete Gymsport Activities header.

Q: How can a Club remove a Gymsport and Level for an athlete?

A: Clubs are now able to remove old or incorrect Gymsport and Levels for athletes. In the athlete record, a table with Gymsport, Level and Date will be displayed usually under an Athlete Activities header. To remove a Gymsport and Level, simply click on the delete link on the line you wish to remove. Please note that in 2018, a [new athlete code solution](#) was introduced which automatically supersedes Athlete Codes once it is recorded that an Athlete has attained a higher level for their Gymsport as per the Athlete Code rules.

Q. Why are codes decommissioned and what do you need to do?

A. Athlete codes are decommissioned when a Gymsport decides to update their framework. As skills can be different it is not possible to automatically move these athletes to a different code. It is the Club's responsibility to re-assess athletes in the decommissioned code and use the Gymsport's framework to place the athlete in one of the current year's Levels associated with the Gymsport.

Q: What needs to happen when transitioning KinderGym athletes?

A: It is important for Clubs to remember to update athlete codes for KinderGym athletes (GFA KG) when transitioning to a Launchpad or Recreational Gymnastics Program (GFA 0). KinderGym athletes should only be 5 years and under. All active athletes who are over 6 years old will be moved to GFA 0 by Gymnastics Australia if still registered with KinderGym.

Q: What code should I use for Senior athletes?

A: Mature athletes who are participating in Fitter for Life programs should be coded to the new athlete code GFA FFL. If not participating in a Fitter for Life program, these Senior athletes should be classified as General Gymnastics (GFA 0).

Q: How do I code Special Olympics athletes?

A: There is a different method to flag in an athlete is participating in Special Olympics. Please go to the Athlete's profile and then edit the information in the Personal Information tab under the Demographic Information to ensure the SOA Member field is ticked and input their Special Olympics registration number so the athlete does not need to pay registration/insurance for SOA and Gymnastics Australia. [More information.](#)

Q: How do I code athletes who have a disability?

A: There is a different method to flag the athlete if they have a disability. Please go to the Athlete's profile to edit the information in the Personal Information tab under the Demographic Information to ensure at least one of the disability fields is ticked. [More information.](#)

Q: What is a decommissioned code?

A: A decommissioned code is a code which is no longer used and needs to be changed to a current code.

Q: How do I code Aboriginal or Torres Strait Islander athletes?

A: There is a different method to flag in an athlete is from an Aboriginal or Torres Strait Islander background. Please go to the Athlete's profile and then edit the information in the Personal Information tab under the Demographic Information to ensure that either the Of Aboriginal or Torres Strait Islander descent field is ticked. [More information.](#)

Q. Who's responsibility is it for Athletes to have the correct codes?

A. It is a Club affiliation requirement for Clubs to ensure that athletes have their records updated with the latest athlete codes.

Q. If athlete codes are not up to date what happens?

A. If athlete codes are not up to date it will:

- Prevent the athlete from being eligible for entry to a competition.
- Decrease in the accuracy of reports and statistics
- Prevent GOL (Gymnastics Online) and the National Gymnastics Database from working well
- Reduction in the ability of Gymnastics in Australia to:
 - Make informed decisions
 - Monitor and manage Gymsports
 - Track growth

Q. Who will follow up on incorrect codes?

A. To ensure compliance with Affiliation Standard 2, Clubs [must regularly check and fix incorrect records](#) identified in Club Admin Portal>Bad Data tab. In addition to this, State / Territory Associations will regularly follow up with Clubs who have entered incorrect codes into the system to ensure compliance to the 2023 Athlete Coding Guide. Clubs will be required to correct these Athlete Codes. States / Territories have exception reports available to assist with them with this process.

Q. My Club Importer Validation Template is showing the old codes, what should I do?

A. Please ensure that on the 5 January 2023 you go to Club Admin Home> Club Import> Download the latest validation template as this will have the latest 2023 athlete codes (Gymsports and Levels). Any template versions prior to 5 January will have incorrect codes and should no longer be used.

Q. Where to go for information and support about what the codes mean?

A. First, please look at the Frameworks, Technical Regulations and other information relating to [Gymsports](#). If you require any further information, please contact your [local State or Territory Gymnastics Association](#) if you need any assistance with figuring out which Gymsport and levels to code your Club's athletes.

Q. Where to go for information and support about updating athlete codes?

A. Please [raise a support ticket](#) for support with entering and updating athlete codes.

Q. When does my Club need to start using 2023 Athlete Codes?

A. From 4 January 2023, Clubs are required to start using 2023 Athlete codes for all Athletes. Please do not follow this 2023 Athlete Coding Guide earlier than 4 January 2023 as it will affect the 2022 Gymnastics statistics.

Q: What is the difference between Recreational and Competitive Cheerleading?

A: Recreational Cheerleading is non-competitive cheerleading undertaken as part of a recreational program. Competitive Cheerleading is cheerleading that involves an element of competition. Please note that Gymnastics Australia no longer endorses or sanctions any competitions and does not select the Australian Team for the ICU Worlds.

Q: An athlete in my Club is now at a lower level due to COVID impacts, what should I do?

A: If an athlete is impacted by COVID and is now at a lower level, Clubs please update the athlete's level to match the level they are currently at. Athlete levels can be downgraded at the start of the year if required, changes at other times of the year can only be made in accordance with the relevant Gymsport Technical Regulations.

Q. Where can I find an athlete's athlete code history?

A. Any athlete codes for an athlete which have been superseded or deleted, can be found on the athlete's profile by [following these instructions](#).
