Athlete Code rules for all athletes

Clubs should ensure all current athletes:

1. Have at least one Gymsport and Level on their profile at all times.
2. Only have the latest Gymsport(s) and Level(s) displayed in their profile.
3. Only have one Level per Gymsport except where specified in the [2025 Athlete Coding Guide](#).
4. Do not have decommissioned athlete codes listed on an athlete's profile. Please note that decommissioned codes have been listed in the [2025 Athlete Coding Guide](#).
5. Meet any age restrictions for any age-based Athlete Codes. Please note that age restrictions have been defined in the [2025 Athlete Coding Guide](#) for some codes.
6. Do not have duplicate Gymsport and Levels listed in their profiles.

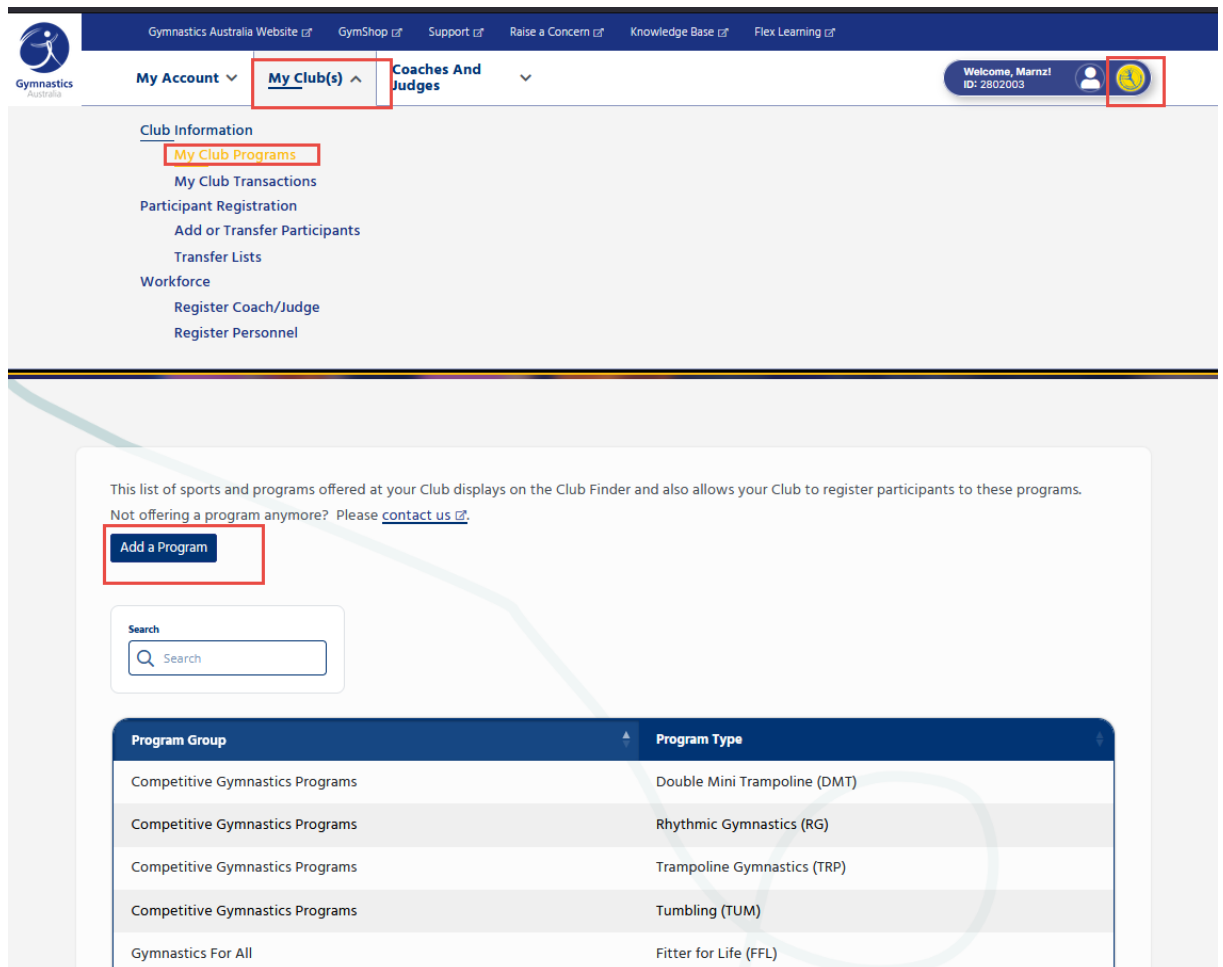

Where to go for assistance

For more assistance with Athlete Codes:

1. Have a look at the [Technical Regulations](#) relating to Gymsports.
2. Please contact your [local State or Territory Gymnastics Association](#) if you need any assistance with figuring out which Gymsport and levels to code your Club's athletes.
3. Please [raise a support ticket](#) for support with entering and updating athlete codes.

How can I check what Gymsports/Programs that my Club is currently registered for?

1. Log into to the Member Portal <https://members.gymnastics.org.au>
2. In the right hand corner organisation dropdown, select the club you wish to update
3. You will see a My Club(s) option in the top menu
4. In the dropdown menu displayed when you click on My Club(s), please click on My Club's Programs.
5. The list displayed on this page are the programs that your Club is registered for. This is what your Club will be advertised as offering on the Club Finder and also allow your Club to register participants to.
6. To add a program, please use the Add a Program button.
7. If your Club needs to remove a program from the list, please contact clubsupport@gymnastics.org.au

This list of sports and programs offered at your Club displays on the Club Finder and also allows your Club to register participants to these programs. Not offering a program anymore? Please [contact us](#).

How Clubs can manage Athlete Codes in the Club Admin Portal

1. Log into to the Member Portal <https://members.gymnastics.org.au>
2. In the right hand corner organisation dropdown, select the club you wish to update
3. You will see a My Club(s) option in the top menu
4. In the dropdown menu displayed when you click on My Club(s), please click on Add or Transfer Participants.
5. You will see a list of your Club's participants displayed on the page. Please use the Status filter and select Active to see all the current participants currently registered for the current year to your club.
6. In the Programs column you can hover over this for each row to check at a glance which programs/Gymsports the member is registered for.

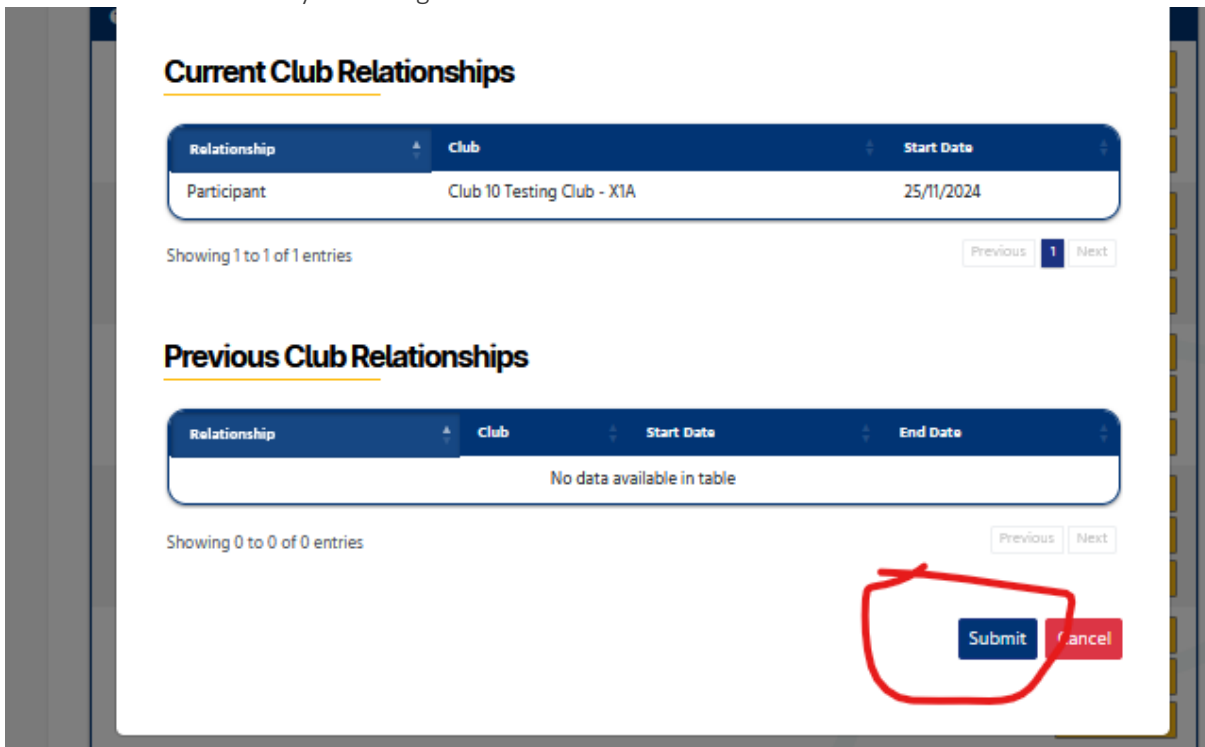

7. To make changes or to view a participant's program, please click on the Edit Program(s) button.

The screenshot shows the Gymnastics Australia website interface. At the top, there is a navigation bar with links like 'Gymnastics Australia Website', 'GymShop', 'Support', etc. Below this is a user account section with 'My Account', 'My Club(s)', and 'Coaches And Judges' dropdowns. A 'Welcome, Member!' notification is visible on the right. The main menu on the left includes 'Club Information', 'Participant Registration', and 'Workforce'. The 'Add or Transfer Participants' link is highlighted in the 'Participant Registration' section. The main content area is titled 'Your club's participants' and features a 'Renew' section with a table of participants and an 'Add/Transfer' section. The table has columns for PPR, ID, First Name, Last Name, Age, State, Multi Athlete, Status, Programs, and Actions. The first row, for participant PAGY00000, has the 'Edit Program(s)' button highlighted with a red box. The second row, for participant EXPA00000, also has an 'Edit Program(s)' button.

8. A pop up screen will appear.
9. In this screen you can:
 - a. Remove a gymsport/program by clicking on remove row.
 - b. Update a level by clicking on the level dropdown.
 - c. Add a new gymsport/program by:
 - i. using the dropdown at the bottom of the table. If you are unable to see a gymsport/program in the dropdown please check your club has registered for this via Member Portal> My Club(s)> My Club's Programs.
 - ii. clicking on the add button
 - iii. The gymsport/program will appear and you will need to select a level.

10. After you make changes, please ensure you scroll to the bottom of the page and click on the submit button to ensure your changes are saved.

Athlete Coding Facts and Questions

Q. What are athlete codes?

A. Athlete codes are Gymsport and Level codes so Gymnastics in Australia can track which Gymsport and level an athlete is currently participating in. Athlete codes correspond to Gymsports and their [Technical Regulations](#).

Q. Why do we need correct Gymsport and level codes?

A. It is important for all athletes to have Gymsport and Levels for the following reasons:

- To be accepted in competition registrations.
- For Gymnastics Online, Club Admin Portal, Websites and the National Gymnastics database to work well.
- For annual statistics
- For grant and funding applications.
- For accurate reporting.
- To support targeted marketing and communication.
- To help the sport to effectively monitor Gymsports and make informed decisions.

- To help the sport to track the growth of Gymsports.

Q: Does every athlete require an athlete Gymsport and Level?

A: Yes, every athlete requires at least one athlete code (Gymsport and Level)

Q. Do all athletes require an up to date Gymsport and Level?

A. Yes, as part of Club Terms and Conditions agreed to in the annual club affiliation process, all athletes require a Gymsport and Level using up to date Athlete Codes as per this guide. The main reasons for this are to ensure our athlete code statistics are accurate and also to ensure that athletes are in the correct Gymsport and level for competitions.

Q: Can an athlete have more than one Gymsport?

A: Yes, athletes can have more than one Gymsport e.g. An athlete can be a WAG athlete and also be a TUM athlete. Please be aware that there are some special rules for Multi-Club Athletes — please look at the [Club Administration Policy](#) for more information.

Q: Can an athlete have more than one Level in their Gymsport?

A: Not all Gymsports allow athletes to have more than one level in their Gymsport. To check what is allowed, please refer to the 'More than one level required?' column in the Gymsport codes list.

Q: How can I use the importer tool for an athlete who has multiple Athlete Codes?

A: The template for the importer has a column for each program/gymsport. To register athletes for a gymsport/program simply select the appropriate level in the column. You are not restricted in the number of columns you can add levels in. However please ensure that your Club is registered for delivering the program via the Member Portal> My Club(s)> My Club's Programs so the registration is accepted.

Q: Is it important to check age groups when placing an athlete into a Gymsport's Level?

A: Yes, it is important to check age groups which are outlined in a gymsport's [Technical Regulations](#) when placing an athlete into a Gymsport and Level as some levels are open to particular age groups and this may change from year to year. Failure to ensure correct age groups could result in an athlete being unable to complete in competitions. The best way to check age groups for levels is to check the description column in the Gymsport's codes list.

Q. How can a Club check athlete Gymsport/Program and level codes?

A. Clubs can check athlete codes by going to the Member Portal> My Club(s)> Add or Transfer a Participant page. You can hover over programs to see their current registrations at a glance. Alternatively to see more information, please click on edit programs button.

Q. Why would an athlete be missing an athlete code?

A. Athlete who have missing athlete codes are due to one of the following:

- They have been created by the Add Participant function which is currently not enforcing at least one gymsport/program and level before the record is saved.
- Someone has been transferred to your Club and they had only Gymsport/Programs on their Athlete Codes that were not registered in your Clubs Programs (Member Portal> My Club(s)> My Club's Programs)

Q. How can a Club identify missing athlete Gymsport and Level codes?

A. Missing athlete codes can prevent your athlete from entering a competition and also are not counted in the overall number for a Gymsport. Clubs can identify missing athlete Gymsport and Levels by going to the Member Portal> My Club(s)> Add or Transfer a Participant page and:

1. See a list of your Club's participants displayed on the page. Please use the Status filter and select Active to see all the current participants currently registered for the current year to your club.
2. In the Programs column you can hover over this for each row to check at a glance which programs/Gymsports the member is registered for. If the number of programs is 0, then this means that the participant is missing programs/Gymsports on their profile.
3. To fix this issue, please click on the edit program(s) button and then:
 - a. Remove a gymsport/program by clicking on remove row.
 - b. Update a level by clicking on the level dropdown.
 - c. Add a new gymsport/program by:
 - i. using the dropdown at the bottom of the table. If you are unable to see a gymsport/program in the dropdown please check your club has registered for this via Member Portal> My Club(s)> My Club's Programs.
 - ii. clicking on the add button
 - iii. The gymsport/program will appear and you will need to select a level
4. After you make changes, please ensure you scroll to the bottom of the page and click on the submit button to ensure your changes are saved.
5. Please note that your Club can only add Gymsports/programs to participants that your Club is registered for. You can check and update this via the Member Portal> My Club(s)> My Club's Programs page

GA and State/Territory Gymnastics Associations will assume that the participant is currently registered in Gymnastics For All – General Gymnastics if a participant is missing an Athlete Code when we run quarterly billing and annual statistics.

Q. How can a Club update athlete Gymsport and level codes?

A. Clubs can update athlete codes by either using :

- The Edit Programs function on the Add or Transfer a Participant page (Member Portal> My Club(s)> Add or Transfer a Participant page)
- The Club Importer (Member Portal> My Club(s)> Club Importer) – this functionality is coming soon.

Q: How can a Club remove a Gymsport and Level for an athlete?

A: Please note that the Club Importer only adds and supersedes Gymsport/Program and Levels. If you need to remove a Gymsport/Program and Level for a participant, you will need to use the delete row

function in the The Edit Programs function on the Add or Transfer a Participant page (Member Portal> My Club(s)> Add or Transfer a Participant page)

Q. Why are codes decommissioned and what do you need to do?

A. Athlete codes are decommissioned when a Gymsport decides to update their framework. As skills can be different it is not possible to automatically move these athletes to a different code. It is the Club's responsibility to re-assess athletes in the decommissioned code and use the Gymsport's framework to place the athlete in one of the current year's Levels associated with the Gymsport.

Q: What needs to happen when transitioning KinderGym athletes?

A: It is important for Clubs to remember to update athlete codes for KinderGym athletes when transitioning to a Launchpad or Recreational Gymnastics Program (Gymnastics for all – General Gymnastics). KinderGym athletes should only be 5 years and under. All active athletes who are over 6 years old will be moved to Gymnastics for all – General Gymnastics by Gymnastics Australia if still registered with KinderGym.

Q: What code should I use for Senior athletes?

A: Mature athletes who are participating in Fitter for Life programs should be coded to the new athlete code Gymnastics for all – Fitter for Life. If not participating in a Fitter for Life program, these Senior athletes should be classified as Gymnastics for all – General Gymnastics

Q: How do I code athletes who have a disability?

A: Please click on the Participant Details button in the Member Portal> My Club(s)> Add or Transfer a Participant page. Scroll down to the header Demographic information and update the field Disability Type(s). Please remember to scroll to the bottom of the popup and select the submit button to save the updated information.

Q: What is a decommissioned code?

A: A decommissioned code is a code which is no longer used and needs to be changed to a current code.

Q: How do I code Aboriginal or Torres Strait Islander athletes?

A: Please click on the Participant Details button in the Member Portal> My Club(s)> Add or Transfer a Participant page. Scroll down to the header Demographic information and update the fields Of Aboriginal Descent and or Torres Strait Islander Descent. Please remember to scroll to the bottom of the popup and select the submit button to save the updated information.

Q. Who's responsibility is it for Athletes to have the correct codes?

A. It is a Club affiliation requirement for Clubs to ensure that athletes have their records updated with the latest athlete codes.

Q. If athlete codes are not up to date what happens?

A. If athlete codes are not up to date it will:

- Prevent the athlete from being eligible for entry to a competition.
- Decrease in the accuracy of reports and statistics
- Prevent GOL (Gymnastics Online) and the National Gymnastics Database from working well

- Reduction in the ability of Gymnastics in Australia to:
 - Make informed decisions
 - Monitor and manage Gymsports
 - Track growth

Q. Who will follow up on incorrect codes?

A. State / Territory Associations will regularly follow up with Clubs who have entered incorrect codes into the system to ensure compliance to the 2025 Athlete Coding Guide. Clubs will be required to correct these Athlete Codes. States / Territories have exception reports available to assist with them with this process.

Q. Where to go for information and support about what the codes mean?

A. First, please look at the [Technical Regulations](#) relating to Gymsports. If you require any further information, please contact your [local State or Territory Gymnastics Association](#) if you need any assistance with figuring out which Gymsport and levels to code your Club's athletes.

Q. Where to go for information and support about updating athlete codes?

A. Please [raise a support ticket](#) for support with entering and updating athlete codes.

Q. When does my Club need to start using 2025 Athlete Codes?

A. From 1 January 2025, Clubs are required to start using 2025 Athlete codes for all Athletes. Please do not follow this 2025 Athlete Coding Guide earlier than 1 January 2025 as it will affect the 2024 Gymnastics statistics.

Q: What is the difference between Recreational and Competitive Cheerleading?

A: Recreational Cheerleading is non-competitive cheerleading undertaken as part of a recreational program. Competitive Cheerleading is cheerleading that involves an element of competition. Please note that Gymnastics Australia no longer endorses or sanctions any competitions and does not select the Australian Team for the ICU Worlds.
